

To Whom it May Concern:

At the request of Mr. Mathieu De Brito, the former intern student in Beijing Institute Of Technology, I am glad to write this letter furnishing my evaluation of his aptitude for your reference.

I came to know him in June 2009 when Mr. De Brito enrolled in my team on virtual reality and augmented reality Programming, a two months' internship. In the group he was one of the most outstanding students, and his excellent people skills have consistently received rave reviews from the members of our lab.

After the class, he had personal talks with me several times. He indicated a great interest in computer science and Chinese culture. In my opinion, Mr. De Brito has a powerful potential in Computer Science, which can be further developed.

Your favorable consideration of his admission will be highly appreciated. If you would like to speak to me about Mr. De Brito 's skills, talents and work habits, feel free to call (0086) 13810696213.

Sincerely,

Christine 祁彩萍

Research Assistant, Laboratory Of Optoelectronic Technology And  
Information system of Beijing Institute Of Technology
