

To whom it may concern:

I am pleased to write this letter of recommendation for Mathieu de Brito. Mathieu worked for me in the Software Engineering Department at Beijing Inpro System for 4 months. He was here as an engineer in computer sciences and served with increasing skill in that capacity.

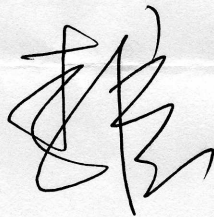

During Mathieu's time with us I interacted frequently with him and depended on him for a special project. Very goal oriented as well as autonomous, Mathieu was always easygoing. He was keenly devoted to his work and well organized. Although these are very strong qualities that Mathieu possesses, his biggest strength to the Software Engineering Department was his ability to make everyone around him a better software engineer.

Mathieu demonstrated from early in his internship that he was an exceptional software engineer as well as an very enjoyable person. Indeed, he integrated very well the company.

In closing, let me say I have no hesitation in recommending Mathieu de Brito for any position pertaining to software development. I feel confident he would be an asset to your organization. If at anytime you wish to discuss my relationship with Mathieu de Brito please feel free to contact me.

Sincerely,

Brighten Li
CEO & President
Inpro System Ltd
